Thanks Janetta,

Yes, just spoke to Shannon Soileau and Sarah Babcock from the City of New Orleans Health Dept. I'm connecting them on another email string.

Yes, we're still waiting for date too. I understand now that the community outreach would start three weeks before excavation? So now we're looking at the excavation beginning in June?

Greg,

Will it be ARS performing this work?

Cheryn

EMAIL FROM EXTERNAL SENDER

Good afternoon,

It will be useful to include both ATSDR, LDH, and City of New Orleans regarding health issues/concerns to make sure same message is being shared.

In speaking with ATSDR/Jennifer Lyke; and LDH/Shannon Soileau, a Frequently Q&A draft will be developed for review and discussions.

The timeline need to be confirmed to make sure appropriate outreach materials/information is provided to the community prior to removal efforts.

Cheryn, Shannon Soileau will likely give you as soon as possible to get a feel of previous outreach efforts.

Jeff, appreciate the attached information.

EPA confirming location for the information repository.

EPA will schedule a conference call to discuss timelines/joint outreach efforts and health education.

Thanks,

Janetta Coats

LDEQ also put some talking points together, thinking about an informational trifold. Feel free to add logos, language or completely dismiss.

Hi Ms. Janetta,

Left you a message. I'm sorry, I understood that EPA would be drafting the talking points for the City to use re: this issue so I apologize for the delay.

I've started the attached for review.

I can engage the City Health Director if needed but we were planning on the DPW Director being the spokesperson.

EMAIL FROM EXTERNAL SENDER

Good afternoon to all:

In efforts to conduct community outreach for Lowerline removal efforts, can you please provide me contact information/emails/phone numbers for those that you feel should be included on the communication/notification strategy.

Being mindful the attached flier was handed out in the community previously (no community interest at that time) once the removal efforts begin there will likely be many questions that need answers.

The removal action will involve the excavation, removal and offsite disposal of contaminated soil and road base on Lowerline Street near the intersection of Coolidge Court. (Gert Town).

In working together to make sure the community is not alarmed we want to reach out before removal efforts begin to make sure all interested parties are aware:

Local Elected Officials
cleanup efforts timeframe
In the event of emergency
keeping their family/pets safe
where to get information
Health concerns
spokesperson
Traffic impact
Health Services

Please provide information the soonest!

Thanks,

Janetta Coats
